

Bureau of Planning and Sustainability (BPS) Update

A monthly snapshot of all the planning work going on in your neighborhoods.

82nd Avenue: Development and Transportation Planning

- Oregon Department of Transportation (ODOT) — 82nd Avenue of Roses Implementation Plan
- City of Portland's Bureau of Planning and Sustainability (BPS) — The 82nd Ave Study: Understanding Barriers to Development

Portland's Bureau of Planning and Sustainability (BPS) and the Oregon Department of Transportation (ODOT) are evaluating opportunity areas along 82nd Avenue between NE Killingsworth Street and SE Johnson Creek Boulevard to improve quality of life for residents and businesses along the corridor. ODOT is creating a list of feasible projects to improve safety, mobility and access for people using 82nd Avenue, while BPS' efforts focus on understanding and addressing barriers to redevelopment/adaptive reuse, mixed use and employment opportunities in key areas.

Better Housing by Design (BHD)

The Better Housing by Design project is revising development and design standards in Portland's multi-dwelling zones (R3, R2, R1 and RH) outside the Central City. The types of housing allowed in these areas include apartment buildings of varying sizes, fourplexes, townhouses and row houses.

This project will include a focus on East Portland, fostering better development that reflects the area's distinct characteristics and residents' needs. It is coordinated with the Portland Bureau of Transportation's [Connected Centers Street Plan](#), which is focusing on street plans for the Jade District and Rosewood/Glenfair centers.

The first workshop on February 25 introduced the project and topics, and a series of stakeholder working groups will provide an opportunity for community members to discuss design issues and code concepts in detail. Discussions and ideas will contribute to a refined set of code concepts, alternative development options, and conceptual street plans to be presented at a public workshop on June 3, 2017. You can attend and participate in any of the

meetings; please RSVP to betterhousing@portlandoregon.gov or 503-823-7728. The next two meetings are:

- March 23 (Thursday), 6 – 8 p.m. at 4815 NE 7th Avenue (Northeast Coalition of Neighborhoods). *Focus on outdoor spaces and building scale.*
- April 6 (Thursday), 6 – 8 p.m. at 8114 SE Division Street (Jade/APANO Multicultural Space). *Focus on street/pedestrian connectivity in East Portland and Jade District street plan and development options.*

Residential Infill Project

Since City Council's adoption of the Concept Report in December 2016, project staff have been developing code and mapping changes to implement the adopted concepts. Mayor Ted Wheeler has directed BPS to draft a Housing Opportunity overlay zone boundary for the Planning and Sustainability Commission (PSC) to consider. This fall the public will have an opportunity to review code changes and zoning map amendments, prior to the PSC hearings in winter 2018.

Stay tuned for more information about upcoming ways to participate in the project. The City Council's approved concepts can be found here: <https://www.portlandoregon.gov/bps/article/623488>. Visit the project website at www.portlandoregon.gov/bps/infill. **Contact:** Julia Gisler, julia.gisler@portlandoregon.gov, 503-823-7624

Central City 2035 Plan

The CC2035 Plan is an update to the 1980 Central City Plan, including new policies, zoning and code for Portland's urban core. The Planning and Sustainability Commission (PSC) has been holding work sessions about specific elements of the Proposed Draft. The last work session and final vote will be held on Tuesday, April 11 at 12:30 pm. For more information, go to www.portlandoregon.gov/bps/cc2035. **Contact:** Troy Doss, 503-823-5857, troy.doss@portlandoregon.gov

Code Reconciliation Project

The 2035 Comprehensive Plan *Code Reconciliation Project* will amend the Zoning Code and other City rules to ensure compatibility with recently adopted Zoning Code amendments. These were adopted by Portland City Council in December 2016 to implement the [2035 Comprehensive Plan](#) and the [Inclusionary Housing Program](#). The *Code Reconciliation Project* will include minor technical amendments to correct code references and other provisions in the Zoning Code. The project will also include code changes to align zoning regulations that have more significant policy implications. The *Code Reconciliation Project* will be underway throughout 2017; look for public meetings and hearings later this year.

For more information, please visit: <https://www.portlandoregon.gov/bps/72600>. **Contact:** Barry Manning, 503-823-7965, Barry.Manning@portlandoregon.gov

Design Overlay Assessment Project

The City is working to improve the design overlay system for all stakeholders and address the design goals outlined in the 2035 Comprehensive Plan. The Design Overlay Zone Assessment (DOZA) project [consultant team](#) has prepared [Draft Recommendations](#) for review. These recommendations offer detailed improvements to the processes and tools associated with the design overlay (d-overlay). They also provide guidance on which of these should be prioritized for short-term implementation. A recommendation [summary sheet](#) is also available. The final recommendations will be published in April. For more information, go to: www.portlandoregon.gov/bps/doza. **Contact:** Lora Lillard, 503-823-3708, Lora.lillard@portlandoregon.gov

Portland Off-Road Cycling Master Plan

This project will provide a vision for a system of off-road cycling trails and facilities where kids, adults and families can ride for fun and exercise while experiencing nature in the city. The plan will make recommendations for the future improvement and management of these trails and facilities, based on community needs and input, site opportunities and constraints, as well as best practices in design, development and management. Find out more about the project here: <http://www.portlandoregon.gov/bps/70151>. **Contact:** Michelle Kunec-North, 503-823-9710, Michelle.Kunec-North@portlandoregon.gov

The Bureau of Planning and Sustainability is working on this project in collaboration with Portland Parks & Recreation, the Bureau of Environmental Services, Portland Bureau of Transportation, the Portland Water Bureau and other local government and community partners.

Regulatory Improvement Code Amendment Project (RICAP) 8

Regulatory improvement projects provide an ongoing and rapid way to address technical and minor policy amendments to land use regulations, thus improving clarity and supporting desirable development. A new proposal, RICAP 8, addresses 44 items: 27 propose amendments to the Zoning Code and 17 propose amendments to the Tree Code. Public hearings on the Proposed Draft were held in December 2016 before the Urban Forestry Commission and the Planning and Sustainability Commission.

The City Council held a public hearing on the Recommended Draft report on February 15 and held a second meeting on February 22. Amendments were offered and adopted, including two that introduced new items to the package (Items #52 and 53) and one that removed a recommended amendment (Item #15). The Zoning Code portion of the package was adopted unanimously on March 1, but the Tree Code portion was held over for further discussion on March 8, 2017. At the March 8 meeting, Commissioners voted to remove recommended amendments related to Item #42, liability for trees in the right-of-way, from the report. Council is expected to vote on the entire package at the March 15, 2017, meeting. Find more

information and the latest updates on the website at:
